NUCLEAR LINK CRAWLER USER GUIDE

Welcome to Nuclear Link Crawler Service!

Nuclear Link Crawler works best with all kind of backlinks; All you need to do is upload them and NLC will generate RSS feeds from those backlinks. ☺

Here's what work best with NLC:

1. Profile link
2. Bookmarking link
3. Blog comments
4. Blog network

And any kind of backlinks, NLC will get Google to crawl them regardless if your backlink quality level.

Nuclear Link Crawler comes with 2 complementary software -

You can download the Nuclear Crawler Booster Here:

http://nlcdownload.s3.amazonaws.com/NCB_Setup.exe

You can download the NLC Submitter Plugin Here:

http://nlcdownload.s3.amazonaws.com/nlc_submitter.zip

We will discuss more about Nuclear Crawler Booster and NLC Submitter Plugin later...

Some Important Note for XRumer User:

NLC is not a magic pill who can force Google to index any kind of backlinks, and often I heard people say that profile link had low index rate, but our experiences tell us that if your profile link is built with spin content on PR1 and above sites, your index rate will be 5X times higher!

While a normal profile link would place 4 or more anchor links, with or without direct linking, and contain many low PR sites, this kind of profile links would not work well with NLC. However, if you spin 50 words to your profile, and may be varying your anchor text a bit (not require), and every time place less than 3 anchor links in your profile, you'll have a lot higher index rate in the shortest time.

If your profile / bookmark link doesn't have these, you'll expect to wait 60 days before your project reaches 50%, and the link juice would be much lower.

IMPORTANT TIP: Always place your anchor link within the spin text, not in front, not at the back, always in between, this is called in-contextual anchor link, which will increase your link power!

NUCLEAR LINK CRAWLER USER GUIDE

This is the project upload screen using text file, the content are generated automatically, you can customize your own content.

Project Name: Your project name

Note: Some notes of your project.

Upload URL List: Text file that contain backlinks, one backlink each line

Feed Title : Title of the RSS feed

Feed Description: General description of the feed

Link Title: The Title of your backlink in the RSS feed, you should spin some targeted keyword here...

Link Description: Description of your backlinks, if you can spin some targeted keyword would greatly help.

Day Span: How many days you want to spread your feed before they became live, this will help you avoid or minimize any Google dance or filter.

Please note that all URLs in the text file must be in this format

`http://myfirstdomain.com/urldir/url1`

`http://myfirstdomain.com/urldir/url2`

Begins with "http://" and one URL per line. You can prepare the list in editor, but usually your link builder will prepare them in this format, and you don't need to do anything but to upload the file. Just double check and make sure all are according to the formatting.

You can spin all kinds of text, and we support 1 level of spinning, please note that multiple level of spinning is not supported.

Here is the details of how to prepare spin article / content:

<http://articlesubmissionreview.com/blog/quick-guide-to-article-spinning-syntax>

I think that's roughly cover NLC control panel, next, let's look at the Nuclear Crawler Booster software...

NUCLEAR LINK CRAWLER USER GUIDE

What is Nuclear Crawler Booster ?

Nuclear Crawler Booster is a proprietary software for Nuclear Link Indexer, it auto download your campaign and projects, and further boost them for you! If you haven't download it, here's the link: <http://nlcdownload.s3.amazonaws.com/NCB Setup.exe>

Here's what NCB will do for you:

1. Upload new project & URLs without login.
2. Download existing projects and boost them through your computer
3. Further boost your existing & expired campaign up to 70%
4. Index your campaign much faster, 10% to 50% improvement on indexing speed!

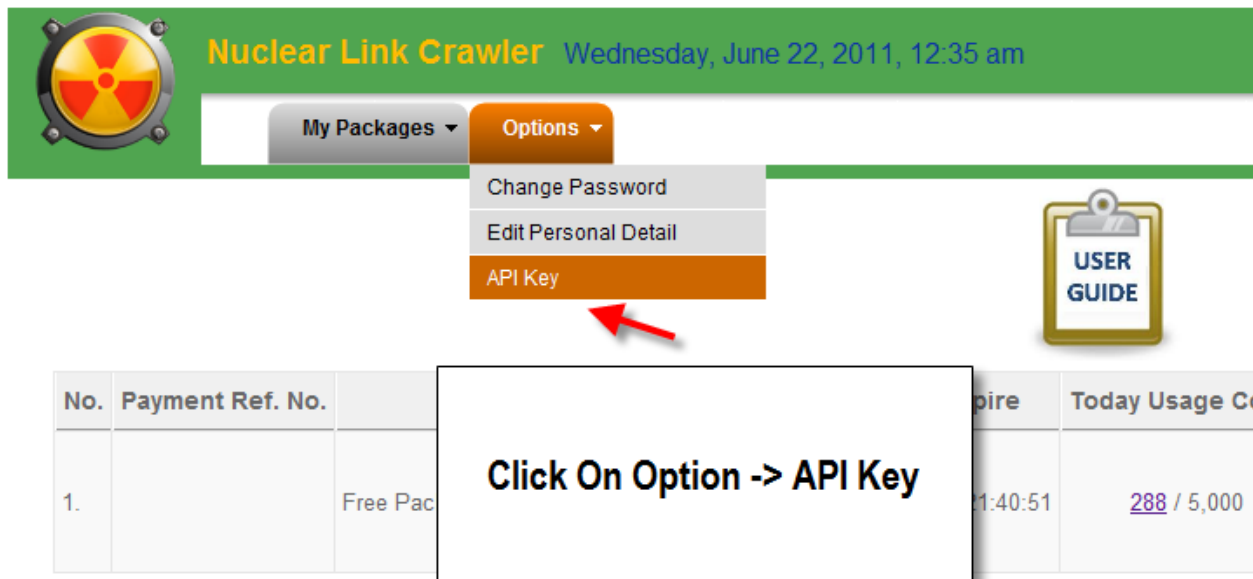

NCB is a complement to Nuclear Link Indexer, it is not require, but if you feel like speeding up your campaign, and automate the upload without login, you might want to consider running this software.

The software will work in the background, it won't interrupt your normal operation, and this is free as long as you are once our paid customer! The software will continue to boost your expired and finished project, so even if you already canceled the subscription, you might want to use this software to further boost your existing projects!

Installing Nuclear Crawler Booster

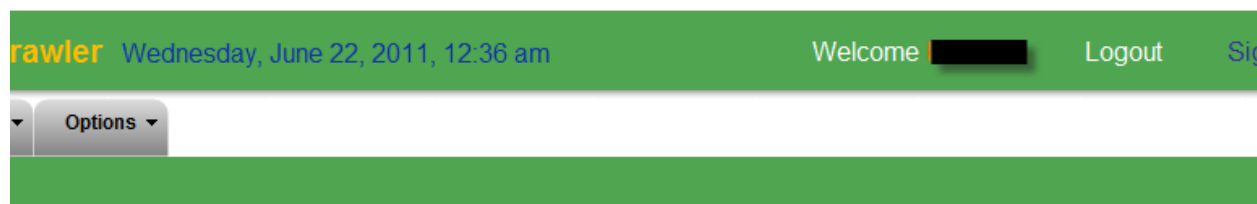

Installing Nuclear Crawler Booster (NCB) is fairly easy, just double click on the "NCB Setup.exe" and let the installer guide you through the installation process.

Prepare The Access Key

The screenshot shows the Nuclear Link Crawler web interface. At the top, there is a green header with a nuclear icon and the text "Nuclear Link Crawler Wednesday, June 22, 2011, 12:35 am". Below the header, there are two dropdown menus: "My Packages" and "Options". The "Options" dropdown is open, showing three items: "Change Password", "Edit Personal Detail", and "API Key". A red arrow points to the "API Key" option. To the right of the "Options" dropdown, there is a "USER GUIDE" icon. Below the "Options" dropdown, there is a table with columns: "No.", "Payment Ref. No.", "Free Pac", "pire", and "Today Usage C". The first row of the table has the value "1." in the "No." column and "Free Pac" in the "Free Pac" column. A white box with a black border and the text "Click On Option -> API Key" is overlaid on the table.

NUCLEAR LINK CRAWLER USER GUIDE

[Generate New Key](#)

No.	Api Key	Ip Address	Last Ip Address	Last Visit	Action
1.	[redacted]				Delete

Copy this API Key into the software

Launching Nuclear Crawler Booster for the first time

The following screen shot is what you'll see when you first launch NCB. You have to insert the your user key in order for NCB to work.

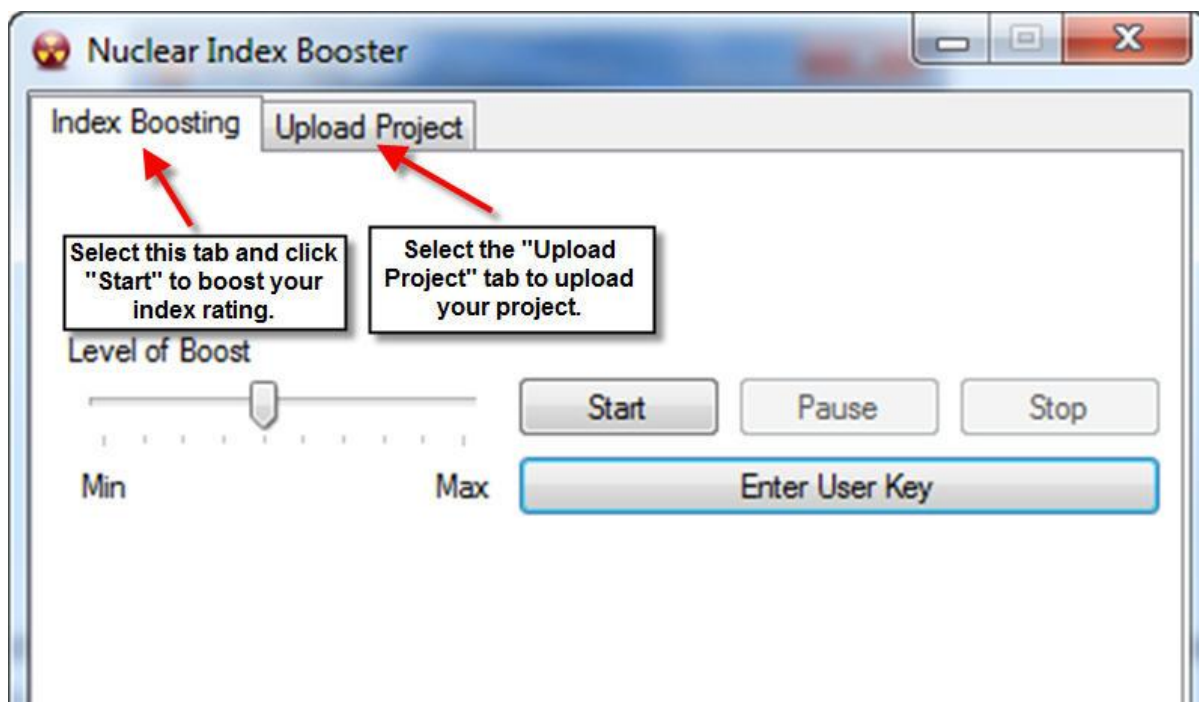

Follow the instruction shown on the screen shot to insert your user key. Once you save your key, you can now start using NCB to boost your index rating.

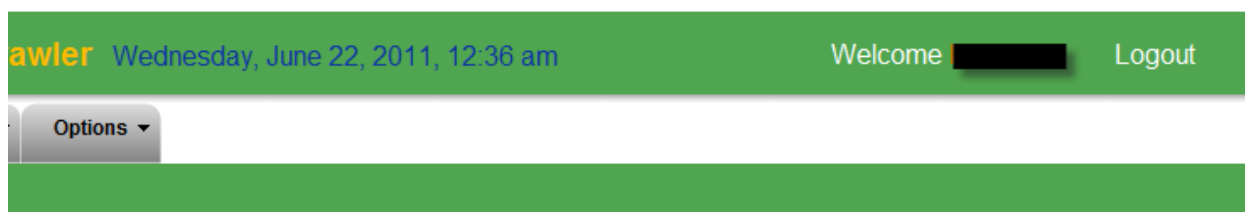

Using Nuclear Crawler Booster

There are 2 things you can do with NCB. The very first and the most important thing is, of course to boost your index rating. Secondly, to upload your project to Nuclear Link Indexer.

NUCLEAR LINK CRAWLER USER GUIDE

Double check your API Key Access to ensure the software running correctly!

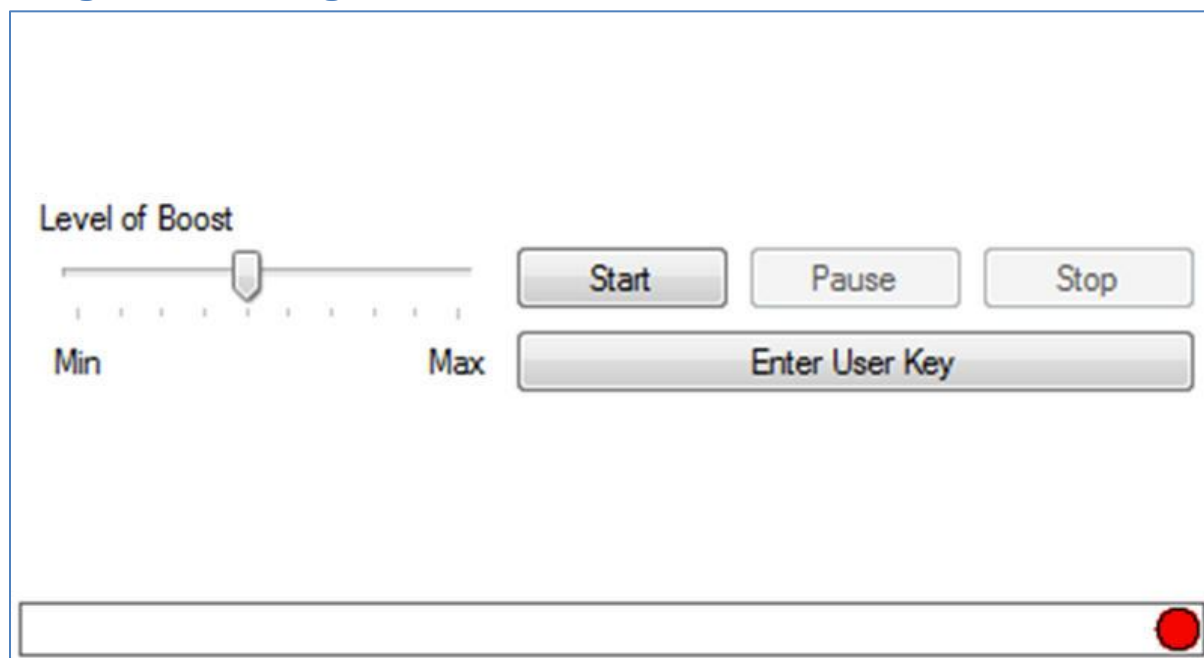

[Generate New Key](#)

No.	Api Key	Ip Address	Last Ip Address	Last Visit	Action
1.	[redacted]	Confirm IP 175.142.142.243	175.142.142.243	2011-06-22 00:32:49	Delete

Once the software running normally, you should see the IP, ignore the confirm IP link.

NUCLEAR LINK CRAWLER USER GUIDE

Using Index Boosting in Nuclear Crawler Booster

"Level of Boost" => You can choose the level of boosting by scrolling the bar to the left or to the right. Scrolling to the left will decrease the level of boosting and scrolling to the right will increase the level of boosting.

Note: Your machine must have at least 1GB of RAM and you must have at least 2MB of Internet connection speed in order to use maximum boost.

"Start" => Click on start button to start boosting.

Note: If you do not click "Start" button to start boosting, NCB will start automatically after being launched for 2 minutes.

"Pause"=> Click on this button to temporary pause the boosting process.

"Stop"=> This will stop the boosting process when click.

"Enter User Key"=> Click on this button and a Insert Key screen will be prompted for you to insert your user key.

 This indicates that currently it has no boosting operation

 This indicates that it is now in initialization state, preparing to boost your index rating.

 This indicates that the index boosting process is now running.

NUCLEAR LINK CRAWLER USER GUIDE

Using Upload Project in Nuclear Crawler Booster

"Project Name"=> This is where you can insert your project name. This is a mandatory field, this field cannot be blank.

"Day Span"=> Number of days you want to spread the project's feed. You may want to use 7 to 30 days so that Google sees your site's backlinks growing naturally...

"Note"=> This is an optional field.

"Date Start"=> This is the date you can set for to indicates when you want your project to be started in Nuclear Link Indexer.

"Browse"=> This is where you select your URL list from your machine to upload to Nuclear Link Indexer.

Note: The larger your URL list file is, the longer it takes to upload your project.

"Feed Title", "Link Title", "Feed Description", "Link Description" => Your custom spin text, or just leave it blank.

"Upload Campaign"=> Click on this to start upload your project to Nuclear Link Indexer. Please remember to double check everything before you click on this button.

If you have any questions, please log your ticket at <http://www.nuclear-link-blaster.com/helpdesk/> we will get back to you in 12 to 24 hours.

Good luck and wish you getting more traffic!

NUCLEAR LINK CRAWLER USER GUIDE

Next, let's look at the wordpress plugin - Nuclear Link Crawler Submitter. If you haven't download it, here's the link: http://nlcdownload.s3.amazonaws.com/nlc_submitter.zip

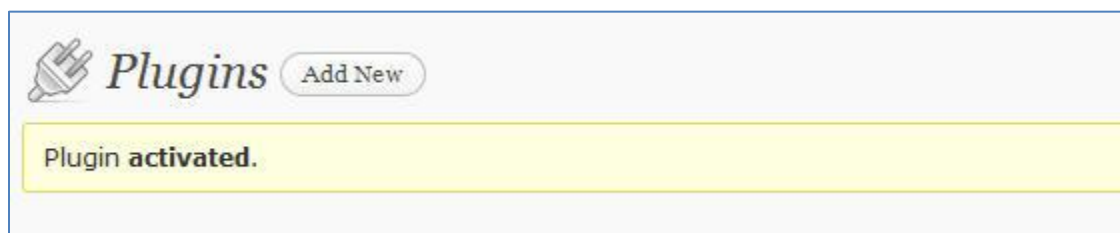

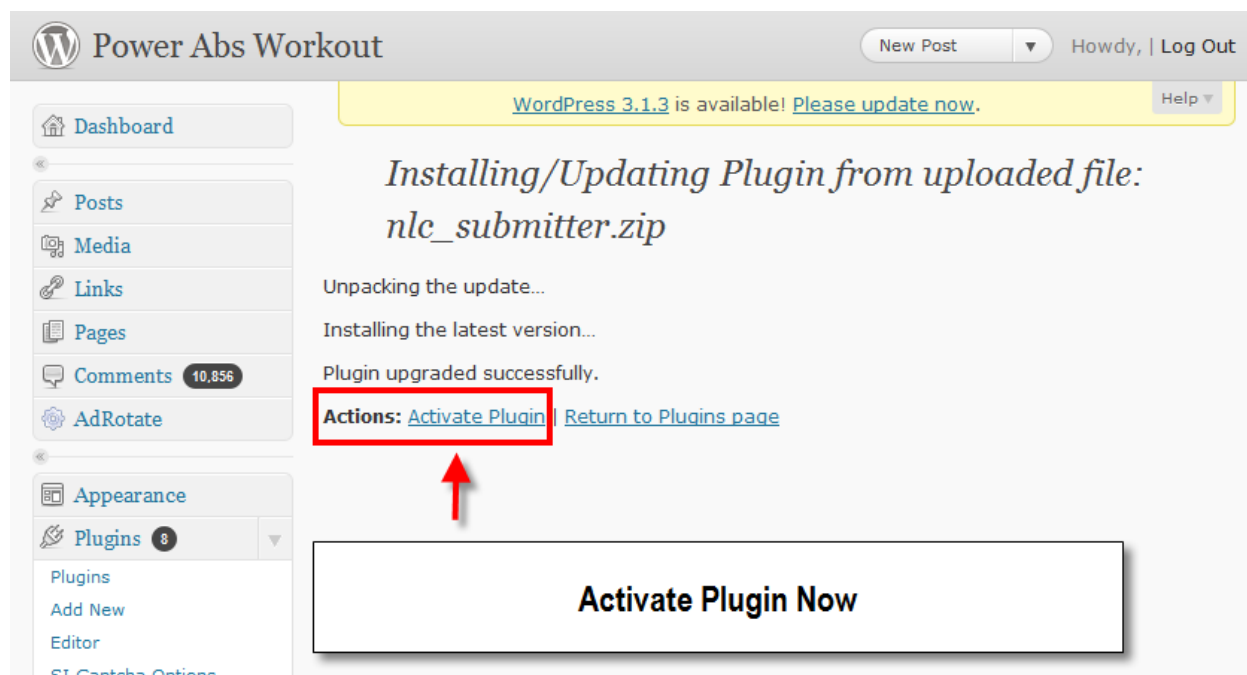

Installing & Activating Nuclear Link Crawler Submitter Plug-in

In order to install and activate the plug-in in your Wordpress, you will have to login to your Wordpress administrator page. Follow the instruction from the following snap shot.

WordPress dashboard for 'Power Abs Workout'. The 'Install Plugins' section is active. The 'Add New' button in the left sidebar is highlighted with a red box and an arrow pointing to it, labeled '1. Add New Plugin'. The 'Upload' button in the top navigation bar is also highlighted with a red box and an arrow pointing to it, labeled '2. Click The Upload'. Below the 'Upload' button, the 'Browse...' button is highlighted with a red box and an arrow pointing to it, labeled '3. Browse and Upload The Zip File'.

WordPress dashboard for 'Power Abs Workout'. The 'Install Plugins' section is active. The 'Browse...' button in the file selection area is highlighted with a red box and an arrow pointing to it, labeled 'Install The Plugin Now..'. The 'Add New' button in the left sidebar is also highlighted with a red box and an arrow pointing to it.

NUCLEAR LINK CRAWLER USER GUIDE

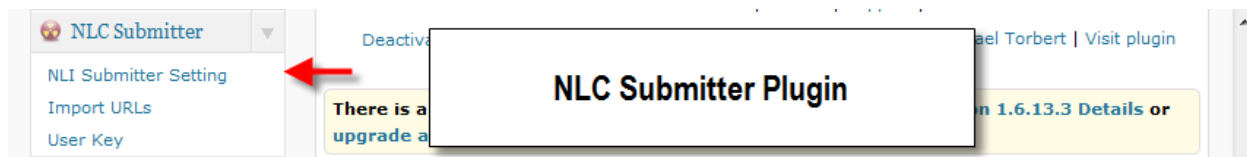

Above is the message you will see upon a successful activation.

NUCLEAR LINK CRAWLER USER GUIDE

Using Nuclear Link Crawler Submitter Plug-in

After you have activated the NLC Submitter plug-in, following snap shot is what you will be seeing.

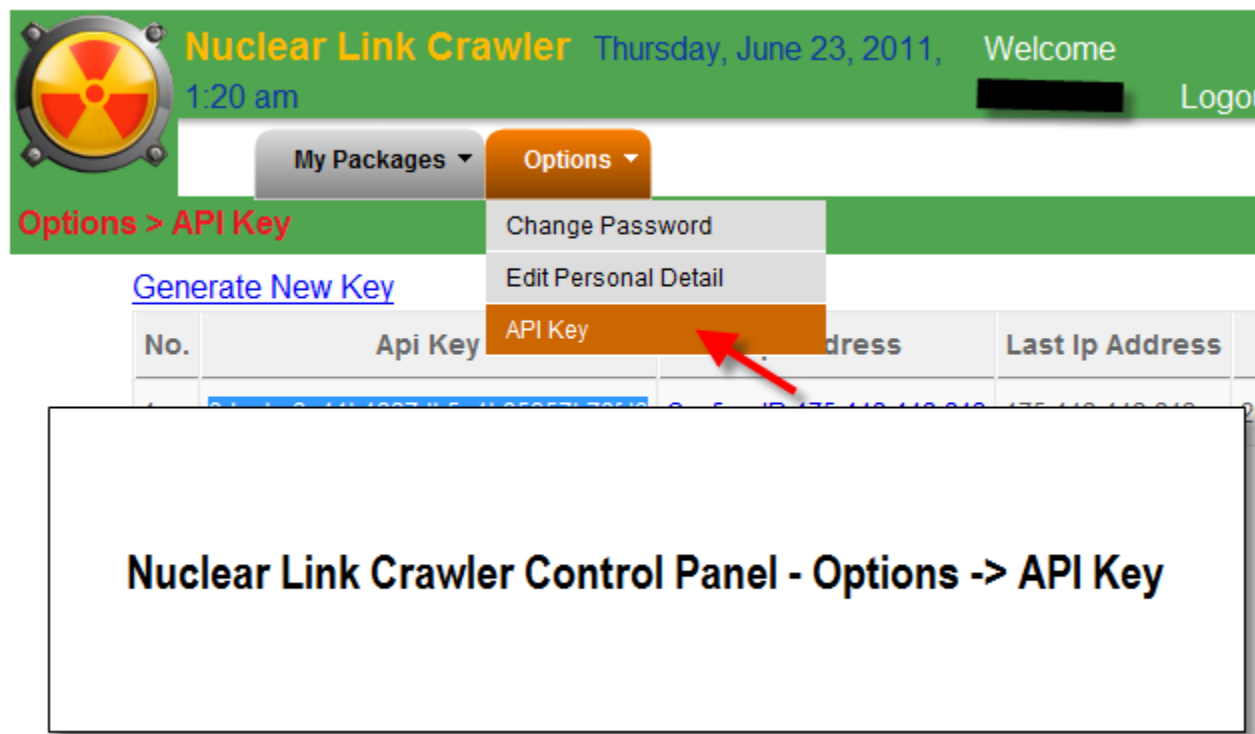

As you can see, in the NLC Submitter Menu, it has 3 options.

NLC Submitter Setting

Import URLs

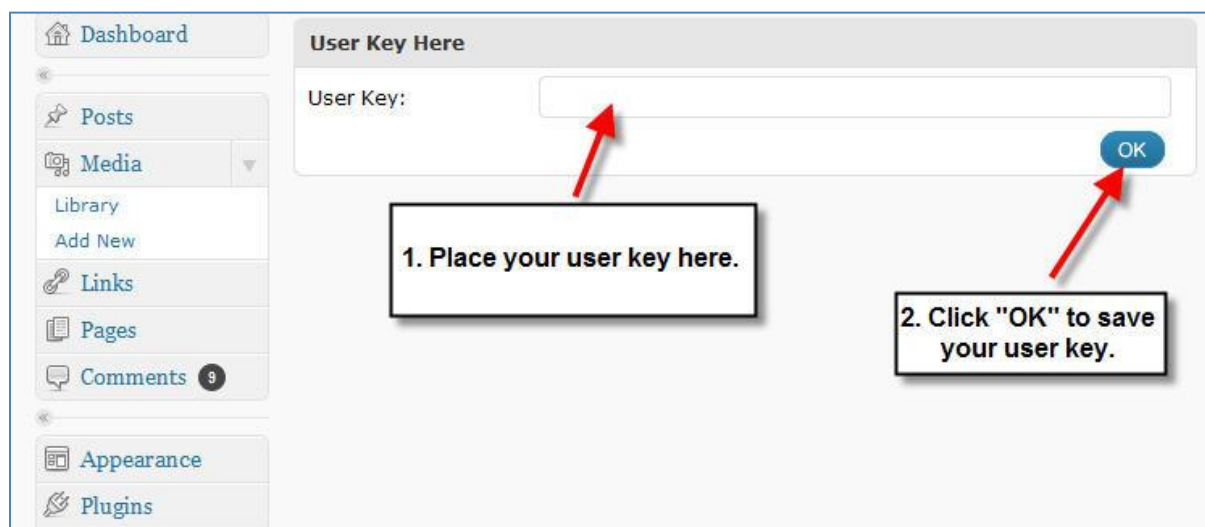

User Key

NLC Submitter will run correctly if you do not key in your user into it. You will be able to get your user key by logging into your Nuclear Link Crawler user page. Follow the instruction shown on the following snap shots.

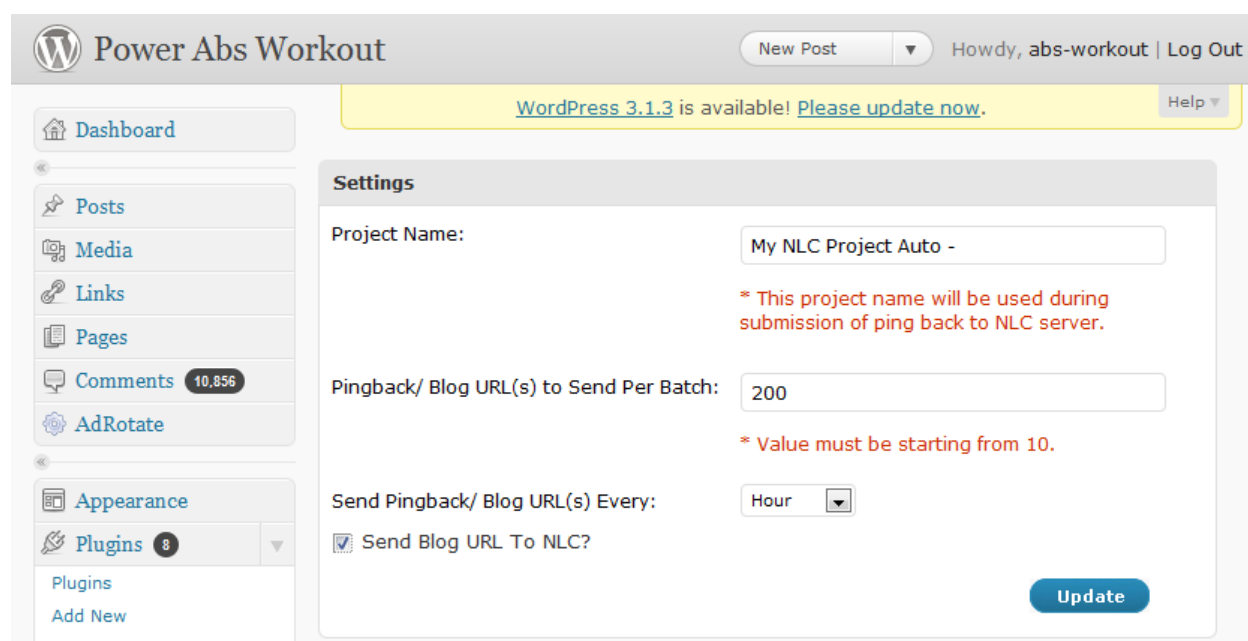

In the generate API Key page, if you don't see any of your user key shown in the "Api Key" column, you will have to click on "Generate New Key" to generate a new user key. Copy the user key shown in "Api Key" column and then paste it to the User Key page in the NLC Submitter plug-in as shown below.

NUCLEAR LINK CRAWLER USER GUIDE

After user key has been inserted and saved, let us go ahead now to do some setting in NLC Submitter plug-in. Click "NLC Submitter Setting" shown on NLC Submitter plug-in menu. Below snap shot is what you will see .

Project Name: This project name will be used when your pingback URLs and blog URLs are being sent to Nuclear Link Crawler server. **Please note that current date and time will be append to the project name you set here when your blog URLs and pingback URLs are being sent to NLC server.**

Pingback/ Blog URL(s) to Send Per Batch: Number of URLs you want to send per batch per interval. The value must be starting from 10.

NUCLEAR LINK CRAWLER USER GUIDE

Send Pingback/ Blog URL(s) Every: You set this to every hour, 6 hours, 12 hours, 18 hours or a day.

Please note that if you set this option to "disable", your pingback and blog URL(s) will never be send to NLC server for indexing.

Send Blog URL To NLC?: If this option is checked, your blog URL(s) will be sent together with your pingback URL(s). If this field is uncheck, only your pingback URL(s) will be sent to NLC server for indexing.

After you have completed with NLC Submitter setting, just click on "Update" button to update the settings.

Basically you are now done and just leave it to your Wordpress to automatically send your new blog URLs and pingback URLs to NLC server automatically from time to time. If you would like to use this plug-in to send additional URLs (URLs which is not from your Wordpress blog), you can do so by selecting " Import URLs" from NLC Submitter plug-in menu and you'll see something like the following snap shot.

NUCLEAR LINK CRAWLER USER GUIDE

The screenshot shows the 'Import URLs' form in the Nuclear Link Crawler interface. The left sidebar contains navigation menus for Posts, Media, Links, Pages, Comments (10,856), AdRotate, Appearance, Plugins (8), Users, Tools, Settings, Contact, Digi Article Blaster, NLC Submitter, and NLI Submitter. The main form area is titled 'Import URLs' and contains the following fields and options:

- Note:** You can choose either to import your URL list from file or key in directly to the "URLs" field.
- Project Name:** Text input field.
- Note:** Text input field.
- Start Date:** Date picker field.
- Day Span:** Dropdown menu set to 1.
- Feed Title:** Text input field.
- Feed Description:** Large text area.
- Link Title:** Text input field.
- Link Description:** Large text area.
- File Path:** Text input field with a 'Browse...' button.
- Import:** Blue button at the bottom right.

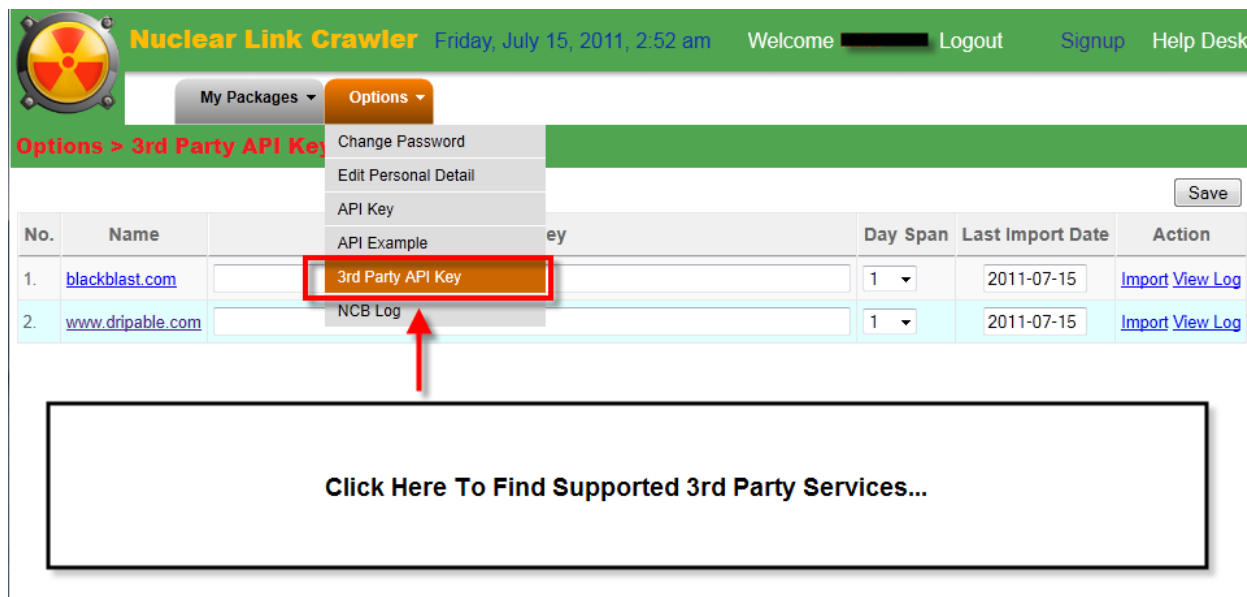

Insert your project name, website(optional), note(optional), project start date and click on browse to select the URLs list file that you want to import. Click on "Import" button to start importing from the URLs list file you've just selected.

Feed Title, Feed Description, Link Title, Link Description - Leave it Blank or put spin text in there.

The number of imported URLs count will be shown on the screen if the URLs are successfully imported to NLC server.

NUCLEAR LINK CRAWLER USER GUIDE

3rd Party API Integration

The screenshot shows the Nuclear Link Crawler interface. At the top, there is a navigation bar with the logo, the text "Nuclear Link Crawler", the date "Friday, July 15, 2011, 2:52 am", and user options "Welcome [redacted] Logout Signup Help Desk". Below this, there are two dropdown menus: "My Packages" and "Options". The "Options" menu is open, showing a list of options: "Change Password", "Edit Personal Detail", "API Key", "API Example", "3rd Party API Key", and "NCB Log". The "3rd Party API Key" option is highlighted with a red box, and a red arrow points to it. Below the menu, there is a table with the following columns: "No.", "Name", "API Key", "API Example", "Day Span", "Last Import Date", and "Action". The table contains two rows of data:

No.	Name	API Key	API Example	Day Span	Last Import Date	Action
1.	blackblast.com			1	2011-07-15	Import View Log
2.	www.dripable.com			1	2011-07-15	Import View Log

Below the table, there is a large rectangular box with the text "Click Here To Find Supported 3rd Party Services..." centered inside.

In Options -> 3rd Party API Key you'll find list of backlink services that NLC can import automatically. For free user, a simple click of the link will auto download and import your daily backlink project into NLC!

Paid account user don't have to do anything beside setup the API key into NLC. Everyday, NLC will schedule and download your backlinks automatically without any human intervention!

If you have any similar backlink service would like us to integrate them into NLC, feel free to contact your service provider, get the API key and coding example from them and send it to us at <http://www.nuclear-link-blaster.com/helpdesk/>

Or alternatively get your service provider to contact us, we will do the integration for you!

Now, let's look into the details on how to enter the API key into NLC!

Please note that Free Account requires manual import of 3rd party backlink report, while paid account will auto import the backlinks everyday!

NUCLEAR LINK CRAWLER USER GUIDE

Drip Feed Blasts (<http://www.dripfeedblasts.com/>)

Drip Feed Blasts is the first XRumer based backlink service with a control panel and auto schedule blast service, now they have extended the service into Directory, Bookmark and Profile link submission.

One of the best feature I love about DFB is the stability and able to spin my own signature content, that'll greatly improve the index rate if done properly!

To integrate DFB into NLC, all you need is the Public Key and Private Key in your Account.

If you don't see the key, click on the "Generate Keys" button, after that copy the Public & Private Key into NLC.

Your Personal SDK Keys

Type	Key
Public Key	[REDACTED]
Private Key	[REDACTED]
User Key (for 3rd Party)	[REDACTED]

[Regenerate Keys](#) [Disable Keys](#)

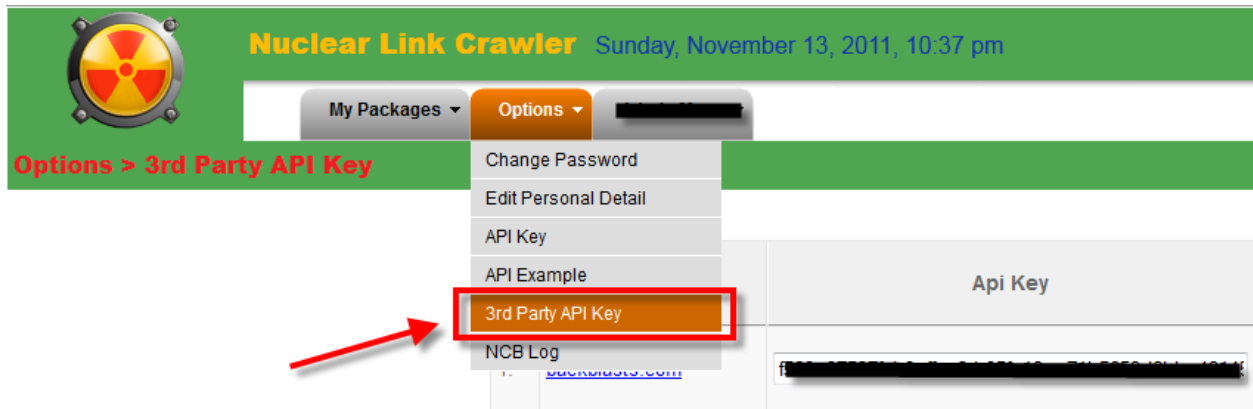

Recent Billing Information

Type	Subscription ID	Amount	Time	Date
N/A	N/A	N/A	N/A	N/A

We do not have your billing information in our database. Please contact dripfeedblasts@gmail.com so we can figure everything out!

In your NLC control panel, go to menu "Options" -> "3rd Party API Key".

NUCLEAR LINK CRAWLER USER GUIDE

The screenshot shows the top navigation bar of the Nuclear Link Crawler application. On the left is a radiation symbol icon. The title 'Nuclear Link Crawler' is followed by the date and time 'Sunday, November 13, 2011, 10:37 pm'. Below this is a navigation menu with 'My Packages' and 'Options' dropdowns. The 'Options' dropdown is open, showing a list of settings: 'Change Password', 'Edit Personal Detail', 'API Key', 'API Example', '3rd Party API Key' (highlighted with a red box and a red arrow), and 'NCB Log'. To the right of the dropdown is a form titled 'Api Key' with a text input field containing a redacted key.

Enter the keys in the correct field.. you'll notice there is a day span field, you can spread the crawl of daily imported report into multiple days.

16.	www.dripfeedblasts.com	Public Key: [Redacted]	1
		Private Key: [Redacted]	

Enter the Public / Private Key in the respective fields.

NUCLEAR LINK CRAWLER USER GUIDE

The screenshot shows the Nuclear Link Crawler web application interface. At the top, there is a green header with the application logo, the name 'Nuclear Link Crawler', the date and time 'Monday, August 15, 2011, 9:44 pm', and user options 'Welcome [redacted] Logout', 'Signup', and 'Help Desk'. Below the header, there are navigation tabs: 'My Packages', 'Options', and 'Admin Menu'. The 'Options' tab is active, and a sub-menu is open showing '3rd Party API Key' highlighted in red. Other options in the sub-menu include 'Change Password', 'Edit Personal Detail', and 'API Key'. A 'Save' button is visible in the top right of the sub-menu. Below the sub-menu, there is a table with the following data:

No.	Name	API Example	Api Key	Day Span	Last Import Date	Action
1.	blackblast.com	5bd3	1cfda16699b0507faf2938529912cd30bcc9e	1	2011-07-09	Import View Log
2.	www.dripable.com	8063	NCB Log 1392f	1	2011-07-18	Import View Log

Save the API key and set the date to start import, save it and click Import! You can specify to spread the backlink crawling period up to 30 days, this gives you much natural backlinks!

NUCLEAR LINK CRAWLER USER GUIDE

Dripable (<http://www.dripables.com>)

The screenshot shows the Dripable User Control Panel. On the left is a navigation menu with options: DASHBOARD, MY PROJECTS, ADD NEW PROJECT, REPORTS, TUTORIALS, SUPPORT, ACCOUNT SETTINGS (highlighted), and LOGOUT. The main content area is titled 'My Account Details' and contains the following information:

- Username: kkchoon (Not editable)
- First Name: Kok Choon (Not editable)
- Last Name: Kow (Not editable)
- Email Address: kkchoon@cynics-services.com (Not editable)
- Active Until: 2011-08-31 (Not editable)
- Account Plan: Paid Member (4,000 links/day) (Not editable)
- 3rd Party API Key: [Redacted]

Below this is the 'YOUR CURRENT ACCOUNT SETTINGS' section, which includes a 'Get This Key' button. A red arrow points from this button to the redacted API key in the account details above. There are also 'UPDATE' and 'RESET' buttons at the bottom of the settings section.

You can find the API key under Account Settings -> 3rd Party API Key, copy that into NLC!

The screenshot shows the Nuclear Link Crawler interface. At the top, it says 'Nuclear Link Crawler' with a radiation icon, the date 'Monday, August 15, 2011, 9:44 pm', and user options 'Welcome [Redacted] Logout Signup Help Desk'. Below this is a navigation bar with 'My Packages', 'Options', and 'Admin Menu'. The 'Options' menu is open, showing 'Change Password', 'Edit Personal Detail', and 'API Key'. The 'API Key' option is selected, and a sub-menu is open showing 'API Example' and '3rd Party API Key' (highlighted with a red box). Below this is a table with the following data:

No.	Name	API Key	Day Span	Last Import Date	Action
1.	blackblast.com	5bd3 [Redacted] 3rd Party API Key	1	2011-07-09	Import View Log
2.	www.dripable.com	8063 NCB Log	1	2011-07-18	Import View Log

Save the API key and set the date to start import, save it and click Import! You can specify to spread the backlink crawling period up to 30 days, this gives you much natural backlinks!
